Suite 930
Denver, Colorado 80222

Re: Comprehensive Review of the Mining and Reclamation
Plan for the Jackpile-Paguate Uranium Mine

Dear Mr. Olson:

Enclosed is the original of the Pueblo of Laguna's proposed contract with Kilborn/NUS for a comprehensive review of the Mining and Reclamation Plan for the Jackpile-Paguate Uranium Mine, Pueblo of Laguna, New Mexico.

The contract substantially follows your proposal previously submitted to the Pueblo for performance of this work. You will notice that Exhibit "A" is not attached to the contract. I request that you prepare such an exhibit which sets forth a schedule for completion of the work items set forth in Article III and the conferences provided for in Articles VI and VIII. As to Exhibit "D", would you be so kind as to attach the Equal Opportunity Provisions referred to in paragraph 4 of your Standard Time and Materials contract. I never found that attachment among the materials provided to me.

If any provisions of this contract are not agreeable with you, please provide me with your proposed changes. If, on the other hand, this contract meets with your approval, please return the executed original to me for presentation to the Pueblo Council and final approval. I will be happy to answer any questions you might have.

Very truly yours,

NORDHAUS, MOSES & DUNN
